

# EL PASO HERALD

## THE RING BEATEN TO A STANDSTILL

W. H. McCullough, Deputy Sheriff of Ward County, Texas, from Barstow, says that for eight years he had suffered death from liver and stomach troubles. And had taken everything from mineral water to calomel. Until it had eaten his stomach and intestines into cancerous ulcers until any food would throw him into terrific spasms. In despair he came to El Paso. And Dr. Collins, of the Dr. Still Osteopathic Infirmary, loosened the nerves of my spine and threw the blood to my stomach. And it and my intestines shed their linings and threw the cancers out and I grew so bad I had spasms every hour until the lining was out; then new skin formed on my stomach and intestines until now I am a new man. Don't have any more spells and enjoy every mouthful I eat. El Paso does not realize what a Great Blessing it has in that Great Osteopathic Institution, under Dr. Ira W. Collins, Physician in Chief. Just think what an awful condition I was in. And all the medical doctors would shake their heads and say no hope. After they had cut off my appendix, and said that would cure me. Then cut out my liver for gall stones and said that would cure me. Then after there was nothing else to cut off, and no hope I hadn't taken, left me to die in agony and say there was no hope. Don't be foolish. But write me if you don't believe what the papers say. For they cured me in the awful hour of my troubles. And I want everybody to know it. My father investigated what they were doing for others and found they were all like me, overjoyed at what had been done for them. SO GO AND TRY IT. And don't get discouraged and quit when you feel worse, for they gave to pour that poison blood out of your system, and it seems worse to you. But they will cure you.

Barstow, Ward County, Texas.

Deputy Sheriff.

Like Mr. Buchanan did when his eyes were so blurred and had he suffered death. They resembled chunks of beef steak. Now he can see and has gone back to work. Also Little Blind Joe Kelley and Mrs. Smith, who can now see as well as anybody.

Or like Mrs. McBen of Courtland, Ariz., did when doctors only gave her 3 days to live, and called her husband an old fool for bringing her here. Worst case of stomach and liver trouble and rheumatism on record now well and enjoying life. Couldn't hold water on her stomach, now eats heartily.

You ought to go there like Mr. Williams of Mendenhall, Ariz., did. Had been to all kinds of springs and suffered agony all the time with rheumatism. Was brought here on a stretcher. They loosened his hip right here. Doctors reported all over town they had broken his hip. Is now back home at work and happy.

Here is where they cured Mr. Smith of Denver, also of sciatic rheumatism. Was so bad they had to go to depot and treat him before he could be moved to the infirmary.

Mrs. Roundtree of Corona was also given up to die with rheumatism. Is now well.

Here is where they cured Earl Powell of El Paso of fits that 20 doctors, so-called specialists, had bled his parents of all kinds of money and never did him a particle of good. Now he is perfectly well, together with about 50 more all kinds of spasms in children, simple minded, paralysis, all children's diseases. At least 1000 cases handled.

This is where they cured the manager of Overland magazine of appendicitis. Doctors said he would die in 24 hours unless they operated on him. The New York manager had been cured of appendicitis by Osteopathy. He went to have him sent to Dr. Ira W. Collins, of Dr. Still's Osteopathic Infirmary. He is now sound and well, so is about 200 more cases, many of them living right here in El Paso.

Here is where they cured Mrs. Crosswhite of locked bowels. Doctor had given her hope and burned them into mass of sores. Osteopathy loosened the bowels and cured her up. Would have been a corpse in 24 hours. Another lady in same fix on Missouri street. Had been nearly killed by diphtheria when bowels were locked. Is now well.

Also nearly a hundred cases like these cured after being nearly killed by drugs which try to force the food through and often burst them. That is the only way you can do with appendicitis as a physis when taken pushes food down instead of throwing it up and bursts the tender bowels. No body ever dies with appendicitis itself, as it folds in and heals up itself when no physis are taken. They have cured a lot of these cases after they had been operated on as they are nearly always cured with some kind of intestinal trouble, after operations for appendicitis. Over half the cases are kidney troubles and they never had appendicitis, but they scared them into the operations just the same and while those cases usually die the rest suffer worse after the operations for appendicitis.

This is where they cured all those bad cases of tonsillitis. The Fleming boy was choking to death with it. He is now perfectly well. So was R. L. Page's boy dying with diphtheria, but is now perfectly well, cured at Still Osteopathic Infirmary. Mrs. Harter was also cured of bad case of quincy of long standing. She is now perfectly well.

This is where they cured Mrs. Mills and Mrs. Talkurst of consumption when even the brother of Mrs. Talkurst, a medical doctor, said she never could return to her home. Now they are both well and live back at their old homes. They usually send a dozen or two home well each spring besides all that live here in El Paso. In fact, they never lost but one patient with throat and lung troubles out of the hundred they have handled. See the sworn statements of their patients.

This is where they cured Mr. Holden, the banker, Mr. Homer, the merchant of New Mexico, besides scores of others right here in town, besides all these ladies who have suffered so much. They always have droves of these on hand, as there

This is where they cured Mr. Brown, the postmaster at Courtland of asthma. Also Mrs. Pratt on Boulevard and several business men here in El Paso besides scores of women. In fact, there is no other way to cure asthma as the hundreds of our patients will certify to. See their sworn statement before notary.

This is where they cured all these tubercular hips. Many of them had been in casts and were all worse than they were before. Some of the hips were out of joint. These were all set. Some had been bandaged too tight and bone had rotted. Some had old sores of 20 years' standing. All were cured. Some had run miles in foot and had just blood poison. All were cured. Many of them live right here in El Paso so you can see patients and talk with them. See their sworn statement before notary.

NE hundred and twenty-eight years ago, in February, 1784, King George the Third of England confirmed the order of knighthood upon a young man who, later on, was to become world-famous as Count Rumford, soldier, diplomat, scientist, statesman, political economist, all-around brilliant man of the world.

In the life story of Benjamin Thompson, romance reaches its high water mark. It is the most wonderful story in the annals of our country, and but few lives in the history of the race equal it in thrilling interest.

Benjamin Thompson, born at North Woburn, Massachusetts, March 28, 1753, and at 13 was apprenticed to a Salem merchant. Two years later he found him a dry goods clerk in Boston, and a little later still a schoolmaster at Bradford on the Merrimack. At 19 he quit schoolteaching and married a widow of twice his age. Before the honeymoon was over the American Revolution came on, the "Sons of Liberty" treated Thompson rather brutally, and he fled to England, where he almost immediately vaulted to high official position, his aggregated salary amounting to more than \$15,000 per annum. For a man who had not yet reached his 31st year, that was doing pretty well.

Taking a trip over to Bavaria, he captivated the elector, who made him the first man in the state with civil and military powers which were practically equal to those of the elector himself.

Instantly the whole condition of affairs was changed. The finances of the country were put on a safe basis, the army was rejuvenated, the police reorganized, and the multitude of tramps and beggars was wiped out as if by magic.

For what he did for Bavaria, Thompson, already knighted by the king of England, was made a count of the Holy Roman Empire, and took the title of "Count Rumford" from the little New England village where he was born, which was later on changed to Concord.

The many-sidedness of Thompson reminds us of Benjamin Franklin. He was a great statesman, diplomat, and economist, a great scientist and practical philanthropist. Thompson must ever rank among the most remarkable men of all times.

Here is where they cured 1200 cases of female diseases. Hundreds of them had had operations and all were worse than before the operations, some had great abscesses left because the avenue of escape for the stagnant blood had been shut off. Some had shriveled limbs and suffered death. I wish you could see all the mangled people they have to deal with

each year after the surgeons have chopped every thing loose they could find and did them no good and left them to die. There ought to be a law forbidding this operation business. It slays more than war ever did. They just scare them into operations because they want the money, as they confessed in Pearson's magazine. Dr. Still Osteopathic Infirmary has never used a knife nor drop of drugs and cured a hundred to their one. Osteopathy loosens the nerves to the parts and the renewed circulation carries the stagnant blood out and builds up the parts and you are well again.

Here is where they cured Mr. Harper of Clifton, Ariz., of Bright's disease, given up to die. Mr. Hays of New Mexico, Mr. Wilson of Dalhart, Mrs. Jones of Marfa, and 200 others, many right here in El Paso.

Here is where they cured Mr. Roberts, Helme's daughter and Mr. Kilburn. Osteopathy is the only way to cure grippe or pneumonia for the nerves in either case are congested to lungs and you must free them or you will go into consumption if you exhaust them by drugs or stimulants. This is why one third of our inhabitants die in prime

of life with consumption. Osteopathy frees the nerves and they force circulation in lungs, throw the impurities out and you are well again.

HEMORRHAGES  
Here is where they cured Mr. Smith after he had bled a bucket full. Given up by the surgeons. Also Mr. Hyne of lung hemorrhage. Mr. Shuhalter, also lung hemorrhage. In fact a hundred different internal hemorrhages. They have perfect control of circulation in any kind of hemorrhage. They never tie arteries, but stop them immediately.

Because of their perfect control of circulation they can throw out the impure blood and cure any disease by a greater percent than ever known. Only a loss of one to a thousand, while the other methods of doctoring by poisons kills 75 to 100 per thousand. More than the entire inhabitants of South Dakota die each year with consumption because the poisons and stimulants exhaust the nerve and make it congest more at the spine. Besides all they kill while doctoring with drugs you cannot cure any body with poisons, but you can kill any well man with them. Try Osteopathy long enough and don't be prejudiced, for "in the blood is the life of all flesh." Bible. All you need to do is get it to circulate and freeing the nerve at the spine does that.

GRIPPE AND PNEUMONIA  
Here is where they cured Mr. Roberts, Helme's daughter and Mr. Kilburn. Osteopathy is the only way to cure grippe or pneumonia for the nerves in either case are congested to lungs and you must free them or you will go into consumption if you exhaust them by drugs or stimulants. This is why one third of our inhabitants die in prime

of life with consumption. Osteopathy frees the nerves and they force circulation in lungs, throw the impurities out and you are well again.

## RIGID INSPECTION GIVES EL PASO BETTER MEATS THAN OTHER CITIES

Animal Husbandry Bureau Gathers Data Which Shows El Paso in Lead.

That the people of the city of El Paso get better meat, that the work of the meat inspectors of this city and of the El Paso district is of a higher standard than that of any other city in the state and ranks high among the cities of the United States, may not generally be known, but it is a fact.

This information is the result of a comparison of inspection work done in El Paso with that elsewhere, which was prompted by a request by the Animal Husbandry Bureau of the United States department of agriculture for data from all the cities in the union upon the inspection of meats.

That this inspection work of excellence of the inspection work in this city has escaped attention locally is probably because it is of recent date, or at least a matter of only a few years.

Parts El Paso Standard High. Young men who are now casting

their first roles can remember when the first local inspection standards were established, none so rigid as those which are now in effect. At the time, and they will remember that many men were indignant and considered the act an injustice and an imposition. The young men who remember the difficulties of enforcing these requirements in the old days, that the men in whose direction this work was placed kept "right at it," and today El Paso has a standard which is second to none.

This fact is becoming known in other localities also, and inquiries regarding the work done and the methods pursued by the local board, have been received from many cities in Texas, and from the larger cities of California.

## DAILY RECORD

Building Permits.  
To H. L. Stewart, Feb. 3, to build a two-story store building on 25 feet of lot 255, in block 62, East El Paso, estimated value, \$10,000. The building will be 25x120x45 feet in size and will be located on Stanton street.

Deaths Filed.  
Town of Sierra Blanca—T. D. Love and Charles Brown to Albert S. Kilar and to his successors, a section of land containing 150,000 square feet, in the town of Sierra Blanca; consideration, \$1, Feb. 3, 1912.

Surveys Filed—A. R. Lorton and wife to Ora McKay, 100 acres described as the northeast quarter of section 15, block 258, survey 27, the original grantee being the U. S. F. R. R. April 25, 1910; consideration, \$1.

Hart, Satterthwaite's addition—Mrs. Rose E. Hart, 500 square feet, block 258, lot 5, block 25, Hart-Satterthwaite's addition; consideration, \$443; Feb. 5, 1912.

Franklin Heights addition—John H. Lomas and wife to J. M. Forbes, lots 14 and 15 and the west one-half of lot 16, block 84, Franklin Heights addition; consideration, \$10,000; Feb. 5, 1912.

East El Paso addition—Samuel A. Vaughan to Juana V. Martinez, lots 15 and 16, block 62, East El Paso addition; consideration, \$250; Feb. 9, 1912.

Socorro grant—T. M. Wingo to J. P. Primm, his one-half interest in a tract of 55 acres in the Socorro grant; consideration, \$450; Jan. 25, 1912.

Marriage License.  
Napoleon F. Lucero to Francis Delt-rich.

Births—Girls.  
To Mr. and Mrs. Mariano Martinez, 1115 Campbell street, Feb. 7, 1912.  
To Mr. and Mrs. Felix Nolasco, El Paso, Feb. 8, 1912.

Births—Boys.  
To Mr. and Mrs. A. M. Forbes, 511 Estrella street, Jan. 19, 1912.  
To Mr. and Mrs. J. C. Juarez, 612 Clam-vol street, Jan. 31, 1912.  
To Mr. and Mrs. W. S. Dawson, 1605 North Kansas avenue, Feb. 6, 1912.

BOY STRUCK BY BICYCLE AND HAS HIS LEG BROKEN  
Avalino Ronquillo, a Mexican boy living at the corner of Seventh street and El Campo alley, was run over by Juan Morales on a bicycle Friday afternoon and his left leg was broken between the knee and the ankle. He was taken to the police station, where Dr. Frank Lynch was called and attended the fracture. Morales was arrested on a charge of reckless riding. He is about 17 years old.

A NOTRE DAME LADY'S APPEAL  
To all knowing sufferers of rheumatism, whether muscular or of the joints, sciatica, lumbago, backache, pains in the kidneys or ovaries, please to write to her for a home treatment which has repeatedly cured all these troubles. She feels it her duty to send it to all sufferers FREE. You cure yourself at home as thousands will testify—no change of climate being necessary. This simple discovery restores the acid from the blood, loosens the stiffened joints, purifies the blood, and lightens the eyes, giving elasticity and tone to the whole system. If the above interests you, for good reason, Mrs. M. Summers, Box 9, Notre Dame, Ind.

## Count Rumford

By REV. THOMAS B. GREGORY.

NE hundred and twenty-eight years ago, in February, 1784, King George the Third of England confirmed the order of knighthood upon a young man who, later on, was to become world-famous as Count Rumford, soldier, diplomat, scientist, statesman, political economist, all-around brilliant man of the world.

In the life story of Benjamin Thompson, romance reaches its high water mark. It is the most wonderful story in the annals of our country, and but few lives in the history of the race equal it in thrilling interest.

Benjamin Thompson, born at North Woburn, Massachusetts, March 28, 1753, and at 13 was apprenticed to a Salem merchant. Two years later he found him a dry goods clerk in Boston, and a little later still a schoolmaster at Bradford on the Merrimack. At 19 he quit schoolteaching and married a widow of twice his age. Before the honeymoon was over the American Revolution came on, the "Sons of Liberty" treated Thompson rather brutally, and he fled to England, where he almost immediately vaulted to high official position, his aggregated salary amounting to more than \$15,000 per annum. For a man who had not yet reached his 31st year, that was doing pretty well.

Taking a trip over to Bavaria, he captivated the elector, who made him the first man in the state with civil and military powers which were practically equal to those of the elector himself.

## TWO SMALL SUITS FOR DAMAGES ARE FILED

A suit was filed against the Western Union Telegraph company in Justice H. F. Stacy's court Friday by C. F. Morse, claiming damages to the amount of \$100, as the result of an alleged error in a telegram made by the company.

It is alleged that the telegram was sent during the month of November, 1911, by Morse to a dealer in Utah, and contained an order for one lamb and two ewes for \$115. The telegram, as sent, read, it is alleged, one lamb and one ewe for \$115, which was received in Mexico by Morse, who was acting as intermediary. The purchaser in Mexico, who had offered Morse \$400 for the three animals, would not pay that amount for the two received. It is claimed, and Morse claims he was damaged to the amount of \$100.

A suit for alleged damages against the Atchison, Topeka & Santa Fe Railway company and the Southern Pacific Railway company was filed in Justice H. F. Stacy's court Friday afternoon by William Gill. The suit is for \$139, which Gill asserts is due him for the delay in the delivery of his baggage by reason of the alleged delay and damage to his carpenter tool chest which he had shipped to El Paso from Hurley, N. M., by way of Denning. The chest, he says, was 42 days reaching El Paso, thereby incurring a loss of \$139 in wages to him, he claimed.

The United States forester's report shows Arizona has 15,214,745 acres of national forests. Arizona has the largest unbroken pine forest in the country.

Desiring to render a great educational service to its readers, The Herald has arranged with Mr. Haskin to handle, without profit to itself, the exclusive output of his valuable book for the El Paso district. "Cut the Coupon from six consecutive issues of The Herald, and present them, with fifty cents to cover the bare cost of manufacture, freight and handling, and a copy will be presented to you without additional cost. Bear in mind that this book has been most carefully written; that every chapter in it is vouched for by an authority; that it is illustrated from photographs taken especially for it; that it is printed in large, clear type on fine book paper and bound in an attractive durable manner. A two dollar value for fifty cents. Act quickly if you want a copy.

## THREE CHILDREN DIE IN MYSTERIOUS FIRE

Maxwell, Ia., Feb. 10.—Three children were burned to death, one man fatally injured and a woman seriously injured in a mysterious explosion which destroyed the home of Isaac Smith, a farmer living six miles northwest of here late Friday night.

The dead are the 12-year-old son of Mr. Smith, the six-year-old daughter of Mrs. Payne Hickman and the four-year-old son of Mrs. Hickman. Mr. Smith received injuries that probably will result in his death, and his daughter, Mrs. Hickman, was seriously cut by glass while leaping from a window.

During the year 1911 the business of Phoenix land office increased over 25 percent over that of 1910.

Farmers in Sulphur Springs valley, in Arizona, are making plans to plant a large acreage in beans, vegetables and fruits. A good market is afforded in Douglas and Biebee and other nearby towns.

You can easily sell it. Call Bell 115. Auto 1115, tell the girl what it is, and The Herald will sell it. No bother, no formality.

## BOY LOSES LIFE IN TRYING TO SAVE DOG

Denver, Colo., Feb. 10.—Trying to save his dog from being run over, Marvin Rush, an 8-year-old boy lost his own life. The lad's pet for terror was maddened on the Fifty-first street crossing of the Union Pacific. In the path of a freight train. Rushing to save the dog the boy ran in front of an incoming passenger train and was instantly killed.
